PROFILE SUMMARY

Senior Fullstack Engineer specializing in TypeScript (React/Next.js) and Python (FastAPI/Django). From crafting responsive mobile interfaces to architecting low-latency backend systems, I bridge the gap between complex business logic and exceptional user experience. A fast-moving, adaptable problem solver dedicated to building modern, scalable digital products.

TECHNICAL SKILLS

UI/UX	Node.js / python
Flutter/React	HTML/CSS/JS

PROFESSIONAL SKILL

Team Player	Communication
Adaptability	Dependable

EDUCATION

Barchelor Of Science, Computer Science
AUG,2016 - PRESENT
University of Botswana, Gaborone

WORK EXPERIENCE

Junior Frontend Developer FEB ,2024 - MAY, 2024
Xavier Africa

- Built and maintained scalable, responsive web applications using modern frontend technologies such as React, Next.js, TypeScript, HTML, and CSS. Translated UI/UX designs and product requirements into clean, reusable, and accessible components with a strong focus on user experience.

Fullstack Developer MAY,2024 - PRESENT
Africort Investments

- Developed and maintained full-stack web applications using Django on the backend and modern JavaScript frameworks on the frontend. Designed and implemented RESTful APIs, business logic, and database models while building responsive, user-friendly interfaces that aligned with product and UX requirements.
