Professional Summary

Software Engineer with 3+ years of experience designing, developing, and deploying scalable web applications and cloud services. Proven expertise in full-stack development, distributed systems, and performance optimization.

Experience

Fullstack Web Developer Jun 2024 — July 2026
Africort Investments *Gaborone, Botswana*

- Developed and maintained scalable full-stack web applications using Django, React js and Next js.
- Designed and developed responsive, user-friendly interfaces that aligned with product and UX requirements.
- Optimized database queries in SQL, improving data retrieval efficiency.
- Architected CI/CD pipelines using GitHub Actions, Jenkings and Docker, accelerating release cycles.
- Integrated DPO Group payment gateway API.

Frontend Developer Feb 2024 — May 2024
Xavier Africa *Gaborone, Botswana*

- Developed scalable user interfaces with React and Next.js, enhancing overall platform accessibility and UX responsiveness.
- Integrated RESTful and GraphQL APIs to facilitate seamless data synchronization between mobile and web platforms.
- Implemented OAuth2 authentication and role-based access control (RBAC) to ensure enterprise security compliance.

Skills

Programming Languages: JavaScript, TypeScript, Python, C++
Frontend: React, Next.js, Redux, Tailwind CSS, HTML5/CSS3
Backend: Node.js, Express.js, GraphQL, REST APIs
Frameworks: Frappe/ERPNext, Django, Nextjs, Reactjs, Laravel
Databases: PostgreSQL, MongoDB, Redis
Cloud & DevOps: AWS (S3, EC2, Lambda), Docker, CI/CD, Git, Jenkins

Projects

My Portfolio | *React, Context API, Tailwind CSS, JavaScript* Sep 2025 — Present

- Built an interactive Zorin OS-inspired desktop environment in React to demonstrate frontend engineering and UI development skills.
- Implemented reusable React components for desktop windows, applications, navigation, and system-style interactions.
- Used Context API to manage global application state and coordinate interactions across desktop components
- Designed a responsive desktop interface with Tailwind CSS, recreating common operating-system interactions within the browser.
